Miller Minute Update - Housing & Recovery

Dear VBC Family,

Thank you for your prayers and care for our family over the past two months!

POST-SURGERY RECOVERY

Rebekah is healing well from her recent ovarian torsion surgery. Pathology results came back negative/clear, so her surgeon does not have any ongoing concerns and is expecting a full recovery.

ONGOING HOUSING SEARCH

Our housing situation is still difficult and hasn't changed. Drugs from neighbors on both sides of us are continuing to come into our home and affect our health. We are actively looking for other rental options. In the meantime, God has given us some good opportunities to connect with people in our neighborhood. Mormon missionaries and Jehovah's Witnesses have also stopped by a couple of times each. Please pray that God will provide a new home for us soon.

BMW CONFERENCE

Rebekah, Elliot, and I traveled north earlier this month for our bi-annual [Advance Utah Conference](#). There were over 100 in attendance, including BMW church planters, their families, and several individuals exploring ministry opportunities in Utah. I had the opportunity to organize musicians from three different churches and lead a prayer session with all the men. The unity and camaraderie that God has created on our field is really special to experience when we get together with everyone.

We are truly grateful for you and hope you have a wonderful Thanksgiving with your loved ones!

In Christ,

Josh, Rebekah, & Elliot Miller

2023 Fall Advance Utah Conference
